

## Satellite Click 10- C00H PDW0GA- 00H003

Price \$699.00 RRP AUD (inc. GST)

### Overview

As powerful as a notebook and as entertaining as a tablet, this elegant 10.1" Satellite delivers the best of both worlds in one very smart detachable device.

With a battery in both the tablet and keyboard, you'll enjoy phenomenal unplugged freedom with up to 15 hours of battery life. You'll be able to fly through your everyday tasks with the fully featured notebook and then detach the screen completely with a simple click to take the big-screen tablet with you. Super thin and extremely light, it's the ultimate in mobile convenience.

The vibrant 10.1" Full High Definition IPS touch display (1920 x 1200) transitions from widescreen notebook to tablet with ease. It's roomy enough to work, multitask and stay brilliantly entertained while enjoying lifelike visuals, bright colours and vivid clarity from every angle.

Whizz through your day with its maximised notebook-class performance thanks to the latest Intel® processor. And when you want to rock the room, pump up the volume and relish the surround sound experience of Dolby Digital Plus™ through inbuilt stereo speakers.

The Satellite Click 10 is fully optimised for Windows® 10, with everything you need built in to maximise your convertible experience. Toshiba's exclusive Keyboard/TouchPad Utility maximises the effectiveness of the Windows® 10 Continuum feature, detecting if you're using tablet touch or keyboard and switching your apps seamlessly between the two modes. Dual-array mics improve the accuracy of your spoken command to Microsoft's personal digital voice assistant called Cortana, which you can launch with our new function key.

With ports on the tablet side, it's easy to connect to a printer using the Micro USB 2.0, transfer high res images from your digital camera via the MicroSD™ or connect to the big screen using Micro HDMI®. There's also an extra two USB 2.0 ports on the keyboard, an HD Webcam and high-speed Bluetooth®.

Plus you can rocket through Microsoft® Edge - the new Windows® 10 browser, watch HD movies and stream videos without a hitch with dual-band 802.11a/b/g/n Wi-Fi™.

Toshiba's exclusive AccuType keyboard offers a more comfortable and accurate typing experience. There's also a new ClickPad™ with Toshiba's palm rejection technology for a fantastic Windows® 10 user experience in notebook mode.

This ultra-portable convertible looks and feels like a stylish notebook. With the keyboard, it measures 21.55mm slim and weighs just over 1kg, while in tablet form it measures just 9.05mm slim and weighs <570g.

**Toshiba recommends Windows 10.**
